PROFESSIONAL & PROJECT EXPERIENCE

Security Officer

Securitas · Gainesville, Virginia · May 2025 – Present

· Secured Microsoft datacenter infrastructure by enforcing access protocols and monitoring sensitive zones in line with compliance standards.

· Managed 1,000+ access credentials for contractors and engineers, improving onboarding speed and access control.

Capstone: Secure Web Application Development (Academic Project)

James Madison University · Harrisonburg, Virginia · January 2024 – May 2024

· Led 11-person Agile team to deliver a secure ASP.NET/C#/SQL Server app that automated workflows and cut manual tracking by 100%.

· Captured stakeholder needs through weekly interviews and documented technical requirements to guide development.

COB 300: Integrative Business Plan & Simulation (Academic Project)

James Madison University · Harrisonburg, Virginia · August 2022 – December 2022

· Collaborated across finance, marketing, management, and operations to create a simulated startup and comprehensive business plan.

· Built Excel-based 5-year financial model and presented final proposal to industry panel, earning high marks for feasibility and creativity.

Field Maintenance Assistant

Mason General Contracting · Leesburg, Virginia · June 2018 – August 2019

· Supported site prep, inspections, and logistical coordination across field projects, helping teams meet project deadlines.

· Adapted to shifting priorities and communicated with contractors to maintain smooth operations.
