PROFESSIONAL & PROJECT EXPERIENCE

Security Officer

Securitas · May 2025 – Present

· Maintained compliance and site integrity of a Microsoft datacenter, ensuring safety of critical IT infrastructure and assets.

· Monitored, logged, and analyzed patrol activity, incidents, and daily reports to identify patterns, support incident resolution, and improve situational awareness.

· Navigated new access control systems, surveillance technologies, and evolving site protocols.

Capstone: Secure Web Application Development (Academic Project)

James Madison University · January 2024 – May 2024

· Spearheaded 3 Agile sprints to design and implement a secure web application, enhancing information access for 12 internal users.

· Conducted weekly stakeholder interviews to gather process insights and translate business needs into clear technical requirements.

· Engineered a full-stack solution that automated key workflows and reduced manual data tracking efforts by nearly 100%.

COB 300: Integrative Business Plan & Simulation (Academic Project)

James Madison University · August 2022 – December 2022

· Completed a 12-hour intensive simulation integrating finance, marketing, management, and operations to develop a comprehensive business plan for a startup concept.

· Built and analyzed 5-year financial forecasts in Excel, incorporating product costs, logistics, and strategic business decisions.

· Delivered a formal business proposal and product pitch to industry professionals, demonstrating strong communication and financial planning skills.

Field Maintenance Assistant

Mason General Contracting · June 2018 – August 2019

· Adapted to changing operational needs, showcasing flexibility and quick learning in task management.

· Supported team coordination to improve overall service delivery and customer satisfaction.

· Gained experience in balancing multiple priorities in a fast-paced environment, strengthening organizational and communication skills.
